## 8. QORAX Pro SPF-40

**Qorax Pro SPF 40 Sunscreen – Dermatologist Recommended for Daily Protection & Healthy Skin**

**Punchline:**

*"Qorax Pro SPF 40 – The Smart Choice for Non-Tanning, Lightweight Protection!"*

### Product Overview:

Qorax Pro SPF 40 is a **dermatologist-recommended** sunscreen designed to provide **advanced sun protection** while maintaining the skin's natural radiance. Its unique formula is **Non-Tanning, Non-Greasy, Non-Comedogenic, Paraben-Free, and Hypoallergenic**, making it ideal for **all skin types, including sensitive and acne-prone skin**.

Powered by cutting-edge **UV filters**, including **Ethylhexyl Methoxycinnamate, Bis-Ethyl Hexyloxyphenol Methoxyphenyl Triazine, and Diethylamino Hydroxybenzoyl Hexyl Benzoate**, this broad-spectrum sunscreen offers **high protection against UVA & UVB rays** to prevent sunburn, premature aging, and hyperpigmentation. The addition of **Dimethicone Crosspolymer** ensures a smooth, matte finish, leaving no greasy residue behind.

### Why Dermatologists Recommend Qorax Pro SPF 40?

- ✔ **Broad-Spectrum UVA & UVB Protection** – Shields skin from harmful sun rays, preventing sunburn and pigmentation.
- ✔ **Non-Tanning Formula** – Helps maintain an even skin tone without sun-induced darkening.
- ✔ **Non-Greasy & Lightweight** – Provides a comfortable, matte finish with zero stickiness.
- ✔ **Non-Comedogenic** – Won't clog pores, making it perfect for oily and acne-prone skin.
- ✔ **Paraben-Free & Hypoallergenic** – Safe for sensitive skin with no harsh chemicals.
- ✔ **Quick-Absorbing & Sweat-Resistant** – Ideal for daily use, even in hot and humid conditions.

### Key Ingredients & Benefits:

- **Ethylhexyl Methoxycinnamate** – A powerful **UVB filter** that absorbs sun rays to prevent sunburn and skin damage.
- **Bis-Ethyl Hexyloxyphenol Methoxyphenyl Triazine** – A highly effective **broad-spectrum UVA & UVB protector** that prevents photoaging.

- **Diethylamino Hydroxybenzoyl Hexyl Benzoate** – Provides **long-lasting UVA protection**, reducing the risk of premature aging and pigmentation.
- **Dimethicone Crosspolymer** – Creates a **silky, smooth texture**, controlling excess oil and giving a shine-free, matte finish.

### How to Use:

1. Apply **Qorax Pro SPF 40 Sunscreen** evenly to clean, dry skin **15 minutes before sun exposure**.
2. Reapply **every 2 hours**, or immediately after sweating, swimming, or towel drying.
3. Use **daily**, even indoors, for **all-day protection against UV rays and environmental damage**.

### Conclusion:

**Qorax Pro SPF 40 is the perfect everyday sunscreen** for those who want **superior sun protection** without the greasy feel. With its **dermatologist-recommended, non-tanning formula**, it ensures your skin stays **safe, fresh, and shine-free** throughout the day. **Make Qorax Pro SPF 40 your daily shield for healthy, radiant skin!**
